INDEX

VOLUME XXXIV, 1967

Subjects and Titles

Academy of Dentistry for the Handicapped—News: 344, 505
Adolescents Brush Better With an Electric Toothbrush: 354
Amalgam Onlays: 271
American Board of Pedodontics Report: 48, 53, 541
Annual Meeting, A.S.D.C., 1967 Program: 363
Attitudes of Pedodontists to Their Graduate Education: 87
Bacteriological Study of the Pulp Canals of Infected Primary Molars: 460
Be Informed—Editorial: 165
Breast Feeding Versus Bottle Feeding in Relation to Oral Habits: 243
Care of the Whole Child—Editorial: 3
Cephalometric Analysis of Berry-Treacher Collins Syndrome: 531
Child Behavior and the Dental Experience: 212
Chloral Hydrate and Promethazine as Premedicants for the Apprehensive Child: 327
Cholinesterase Enzymes in Human Primary Teeth: 336
Clinical and Television Densitometric Evaluation of the Indirect Pulp Capping Technique: 192
Clinical Anticariogenic Effectiveness of Supplementary Fluoride-Vitamin Preparations: 439
Clinical Comparison of a Spherical Amalgam Alloy and a Conventional Amalgam Alloy—A Pilot Study: 176
Clinical Trial of a New Intra-Oral Bandage in Pedodontic Practice: 260
Comprehensive Restorative Procedures for Primary Anteriors: 412
Conservative Approach and Procedure to Fill an Incompletely Formed Root Using Calcium Hydroxide as an Adjunct: 42
Constitution and By-Laws of the American Society of Dentistry for Children: 113
Correlated Clinical and Histological Evaluation of Hydrex in Pulp Terapy: 471
Current Concepts in Periodontal Disease: 204
Defects in Permanent Teeth Following Pulp Exposure of Primary Teeth: 4
Distinguished Service Award: 526
Ectodermal Dysplasia and the Lyon Hypothesis: 265
Editorials:
  Be Informed: 165
  Care of the Whole Child: 3
  It's Fun to Be Fooled: 108
  Open Letter From Editor Alfred E. Seyler: 310
  Tribute to the Public Health Service: 430
  We Need an Ally: 430
  Who Shall Hear?: 326
Effect of Premature Loss of Primary Molar on the Anteroposterior Position of Maxillary First Permanent Molars and Other Maxillary Teeth: 383
Effect of Zinc Oxide and Eugenol on Microorganisms in the Dental Pulp: 166
Effective Toothbrushing Requires Instruction: 296
Effectiveness of NaF Dentifrices: 122
Effects of Pulpal Exposure in the Primary Dentition on the Succedaneous Teeth: 237
Enamel Discoloration by Tetracycline: 109
Epstein's Pearls, Bohn's Nodules and Inclusion-Cysts of the Oral Cavity: 275
Evaluation of Audio-Analgesia Effects: 406

Evaluation of Topical Applications of Stannous Fluoride to Teeth of Children Born and Reared in a Fluoridated Community: 290
Federally Supported Dental Services for Children: 68
Fifteen Years of Hospital Dentistry: 56
Full Mouth Restoration Under General Anesthesia in Pedodontic Practice: 488
"How to Retire Before You Expire"—Panel Discussion: 542
Idiopathic Thrombocytopenic Purpura: A Study of Four Cases: 515
Incontinentia Pigmenti (Bloch-Sulzberger Syndrome): A Case Report With Emphasis on Dental Manifestations: 494
Incorporation of Tetracycline in Developing Enamel and Dentin in Dogs: 93
Index to Volume XXXIV, 1967: 567
Influence of Communal Fluoridation Upon Dental Practice: 228
Influence of Premature Primary Molar Extraction on Bicuspid Eruption: 399
Injury to the Teeth of Succession by Abscess of the Temporary Teeth: 501
It's Fun to Be Fooled: 108
Letter to the Editor: 493
Localized Juvenile Periodontosis: 301
Look Mom—A Healthy Mouth: 80
Mandibular Incisor Jumbling: 452
Mechanism of Tetracycline Staining in Primary and Permanent Teeth: 478
Newsletter Section: Eight center pages, each issue
Nocturnal Bottle-Feeding as a Contributory Cause of Rampant Dental Caries in the Infant and Young Child: 454
Officers and Executive Council—American Society of Dentistry for Children, 1966-67: 140, 202, 305
Open Letter From Editor Alfred E. Seyler: 310
Oral Hygiene Maintenance in Handicapped Children: 511
Panel Discussion—"How to Retire Before Your Expire": 542
Polarized Light and Microradiographic Study of Natal Teeth: 433
President-Elect's Message: 144
President's Message: 2, 66, 250, 308, 426
Prevalence of Supernumerary Teeth in Primary and Mixed Dentitions: 346
Principles of Regeneration and Repair of Oral Tissues: 536
Program—1967 Annual Meeting, A.S.D.C.: 363
Psychological Effects of Dental Treatment on Children of Different Ages: 30
Pulp Therapy in Primary Teeth: 507
Pulpal Response to Dental Caries in Human Primary Teeth: 130
Reactions of Children to Oral Surgery Experience: 97
Reactions to Implants of Conventional and New Dental Restorative Materials: 316
Real Poverty: 528
Recent Analysis of Traumatic Injuries to Children's Teeth: 323
Reduction of Acidogenic Microorganisms by Toothbrushing: 38
Remineralization of Enamel and Dentine—A Review: 444
Report of a Study Demonstrating Improved Oral Health Through Education: 183
Report of the Increase in Bicanine Diameter in 2 to 4-Year-Old Children: 332
Restorative Dentistry Under General Anesthesia for the Exceptional Child—as an Office Procedure: 395
Role of the Voluntary Dental Association and the Private Practitioner: 74
Shedding of Second Primary Molars' Role in Dento-Facial Deformity: 50
Simple Technique for Splinting Displaced Anterior Teeth in Children: 359
Spontaneous Correction of a Primary Anterior Tooth in Cross-Bite: 128
Status of Oral Health in Cerebral Palsy Children and Their Siblings: 219

Steel Acrylic Veneer: 427
Study of Automatic and Hand Tooth Brushing as Used on Retarded or Handicapped Patients: 145
Thumbsucking—Habit or Symptom?: 252
Tribute to the Division of Indian Health, U.S.P.H.S.—Editorial: 430
Universal System for Identifying Permanent and Primary Teeth: 312
Use of Self-Curing Resin in the Restoration of Young Fractured Permanent Anterior Teeth: 15
We Need an Ally—Editorial: 430
Who Shall Hear?—Editorial: 326
